

WT Mail Smart Reply RCA May22 '26

Objective

The goals of this document are:

- Understand error trends across dimensions and locales
- Identify root causes driving annotation mistakes
- Define action plan for calibration and quality improvement

Error Breakdown

1. Personalization

This is the dominant issue across almost all locales (DK, DE, NO, EN-GB, FR, IT, JP, KO, NL, PT, SE, VN, ZH-HK, ZH-TW). Inconsistent grading between Personalization categories:

- Guidelines misunderstanding: Drafts appropriately adapt to the specific email context and relationship even though it deviates from the user profile, warranting Contextually Adapted over Generic or Personalized which is explicitly explained in the guidelines.
- Over-penalization: There are a few tasks where annotators penalize drafts as generic or mismatch even though they follow relationship context, mail patterns, and user profile.
- Excessive padding: Responses are flagged as “overly padded” adding filler phrases that inflate length beyond what the user’s typical style would suggest.

Trend: Calibration gap – guidelines not consistently internalized across annotators. Graders tend to score this dimension subjectively rather than following guidelines.

2. Groundedness

This was reported across all locales, and mainly split between three causes:

- Under-penalization: Annotators overlook unconfirmed or newly introduced information, incorrectly grading the responses as “Grounded”.
- Over-penalization: Annotators overlook that additional information appears in only one response, resulting in a false “Not Grounded” instead of “Grounded”.
- Inconsistent annotation of what counts as grounded: Annotators disagree on whether reasonable cultural inferences or polite additions qualify as grounded or partially grounded – these are **Grounded** and shouldn’t be penalized.

Trend: The annotators tend to overlook key details in prompts, contexts, or reference emails, resulting in both under- and over-penalization. Surface-level check makes annotators miss key information from Additional Personal Information box.

3. Localization

This issue has been reported in several cases for (DK, NO, DE, FR, IT, KO, NL, ZH-CN, ZH-HK, ZH-TW):

- In both Danish and Norwegian, a comma should not be inserted after the opening or sign-offs of an email; the line spacing serves as the separator. The annotators either did not know this rule or missed the error.
- Language mixing and wording not common for specific locale overlooked by annotators.
- Localization issue has been reported where there weren't any.
- Machine-translated phrasing: Unnatural or stilted expressions that feel like direct translations rather than native writing, even when technically grammatically correct.

Trend: Annotators are either overlooking punctuation errors or lack awareness of locale-specific formatting rules. For FR-FR and NL-NL, cases show that punctuation errors and scrambled symbols got overseen and not penalized.

4. Instruction Adherence & Contextual Fit

This dimension was flagged for (DK, DE, NO, TR, EN-GB, FR, IT, JP, KO, NL, PT, SE).

- Wrong name addressed in draft – name could be found in user profile so Instruction Adherence & Contextual Fit should be rated Partially Followed and Fit
- Over-penalization: Responses that were fully compliant got graded as Partially Followed and Fit
- Under-penalization: Annotators show a tendency to default to "Followed and Fit" when "Partially Followed and Fit" would be the correct rating

Trend: Miscalibration around the "Partially Followed and Fit" threshold, annotators both under-apply it by defaulting to "Followed and Fit" despite wrong names or missing elements and over-apply it by downgrading fully compliant responses.

5. Pairwise Comparison

Trend: Annotators Pairwise Comparison was consistent with their own SBS results, but because it was built on incorrect grading in the previous dimensions, the QAer's Pairwise Comparison led to a different conclusion.

6. Naturalness

Although low in overall frequency, this dimension demonstrated consistent deviations for (DK, NO, TR, FR, IT, JP, KO, NL)

- Over-penalization of naturally written responses: Annotators tend to incorrectly mark fluent, contextually appropriate responses as Unnatural despite the language reading like authentic human communication.
- Under-penalization: Genuinely awkward or robotic responses passed as Natural.

Trend: Annotators tend to mistake minor formatting issues for bad fluency and over-penalize good responses, while on a few occasions letting genuinely awkward writing slide.

7. Tone and Empathy Alignment

This dimension got flagged for (NO, FR, NL) in isolated cases, and logged errors were:

- Under-penalization: Responses with a tone that mismatched the expected formality of the context were marked as Aligned when they should have been Not Aligned.
- Over-penalization: Responses that fully match the required tone and empathy level were incorrectly downgraded as Not Aligned.

Trend: Inconsistent assessment of tone fit: Annotators tend to overlook inappropriate formality level.

Root Cause Analysis

- Subjective Personalization grading: Annotators rely on personal judgment instead of guidelines.
- Surface-level Groundedness review: Annotators aren't consistently cross-referencing all available fields before grading, leading to miss actual hallucinations in some cases, and falsely flag valid information in others.
- Overlooking specific locale formatting rules: Annotators lack awareness of punctuation placement in emails or missed language mixing which must be failed.
- Pairwise comparison: Side-by-side comparison gets incorrectly graded due to overlooked issues in previous dimensions.
- Isolated Instruction Adherence oversights: Errors are rare and non-systemic, limited to human errors.
- Isolated Tone and Empathy Alignment: Annotators lacked consensus in isolated cases whether drafts were aligned or not.

Action Plan

Annotators must calibrate against given examples in guidelines before assessing Personalization

- Calibrate application of the Personalization dimension against Step 6 Suggested reply 1 and 2 in the guidelines, analyzing the variance between Personalized and Generic
- Ensure alignment with the Contextually Adapted framework under the query in "Q. How well does the suggested reply reflect the user's communication style?"

Annotators must systematically cross-check text details rather than relying on a surface-level review before assessing Groundedness

- Cross-check all information available in the task to validate that the response does not hallucinate, preventing the under-penalization of unconfirmed details
- Ensure to check additional personal info in all responses so a response is not falsely flagged as "Not Grounded", avoiding improper over-penalization

- If a name is mentioned in the profile, instruction, previous email - it is still grounded in the response even if the profile and user instruction might provide contradicting information.

Annotators must enforce regional formatting conventions and rules before finalizing Localization ratings

- Verify locale-specific punctuation constraints, ensuring that no commas are placed after email greetings or sign-offs in da_DK and nb_NO. (This should also be added to locale-specific rules in guidelines, as it appears this formatting rule is not well known among these locales)
- Screen carefully for unauthorized language mixing and unnatural phrasing to ensure they are flagged and failed according to guidelines
- Validate that localization error genuinely exists before downgrading

Annotators must check that names are present in the task for Instruction Followed and Adherence Contextual Fit

- Always double-check the user profile and task context to verify if names are available before finalizing score.
- Annotators must check every key point in the instruction against the drafts before rating, to prevent omissions.

Locale Error Overview

	A	B	C
1	Locale	Affected Dimensions	Key Issue
2	DK-DK	Personalization, Groundedness, Localization, Instruction Adherence & Contextual Fit, Pairwise Comparison, Naturalness	Localization: Annotators often failed recognize incorrect formatting rules.
3	DE-DE	Personalization, Groundedness, Localization, Instruction Adherence & Contextual Fit, Pairwise Comparison,	Personalization: There is a gap in understanding the difference between the Personalization levels.
4	NB-NO	Personalization, Groundedness, Localization, Instruction Adherence & Contextual Fit, Pairwise Comparison, Naturalness, Tone and Empathy alignment	Personalization: There is a gap in understanding difference between Personalization levels.
5	TR-TR	Groundedness, Instruction Adherence & Contextual Fit, Naturalness	Groundedness: This dimension got under-penalized and over-penalized. Most likely surface-level checked.
6	EN-GB	Personalization, Groundedness, Instruction Adherence & Contextual Fit	Groundedness: This dimension got under-penalized. Annotators overlooked newly introduced information.
7	FR-FR	Personalization, Groundedness, Localization, Instruction Adherence & Contextual Fit, Pairwise Comparison, Naturalness, Tone and Empathy alignment	Personalization: There is a gap in understanding the difference between the Personalization levels.

8	IT-IT	Personalization, Groundedness, Localization, Instruction Adherence & Contextual Fit, Naturalness	Groundedness: Inconsistent distinction between Grounded and Partially Grounded. Mostly under-penalized.
9	JA-JP	Personalization, Groundedness, Instruction Adherence & Contextual Fit, Naturalness	Groundedness: Annotators tend to under-penalize this dimension.
10	KO-KR	Personalization, Groundedness, Localization, Instruction Adherence & Contextual Fit, Naturalness	Groundedness: Annotators under-penalize unverifiable information.
11	NL-NL	Personalization, Groundedness, Localization, Instruction Adherence & Contextual Fit, Pairwise Comparison, Naturalness, Tone and Empathy alignment	Personalization: There is a gap in understanding the difference between the Personalization levels.
12	PT-PT	Personalization, Groundedness, Instruction Adherence & Contextual Fit	Groundedness: Annotators tend to over-penalize Grounded info.
13	SV-SE	Personalization, Groundedness, Instruction Adherence & Contextual Fit, Pairwise Comparison	Personalization: There is a gap in understanding the difference between the Personalization levels. Annotators tend to over-penalize.
14	VI-VN	Personalization, Groundedness	Personalization: There is a gap in understanding the difference between the Personalization levels.
15	ZH-CN	Groundedness, Localization	Localization: Annotators tend to over-penalize fully appropriate drafts.
16	ZH-HK	Personalization, Groundedness, Localization, Instruction Adherence & Contextual Fit, Harmfulness	Tie between Personalization and Groundedness: There is a gap in understanding the different personalization levels, and over-penalized groundedness.
17	ZH-TW	Personalization, Groundedness, Localization	Localization: Annotators tend to under-penalize localization issues. Specifically punctuation formatting.

Severity Calibration

Re-establish clear thresholds with concrete examples across the most impacted dimensions:

Personalization

- **Personalized:** The draft reflect the user's unique communication style: reads as authentically from the user.
- **Contextually Adapted:** The draft intentionally change aspects of the user's typical style to ensure the response remains appropriate for the specific email context.
- **Generic:** The draft fails to incorporate the user's writing style patterns and mail component patterns when they would be appropriate for the context.

Groundedness

- **Grounded:** When person name that can be derived from the task's (user prompt, previous email, additional info, or profile).
- **Partially Grounded:** Draft that gets the core message right but adds a minor invented detail.
- **Not Grounded:** A draft that introduces invented fact that changes the meaning of the message.

- Calibration note: Make sure to systematically check Additional Personal Information for both drafts.

Localization

- Issue: Scrambled symbols and formatting rules that are locale-specific. (Wrong punctuation format).
- No issue: Grammar/Spelling do not fall under Localization issue.

Instruction Adherence & Contextual Fit

- Followed and fit: The draft follows all elements of the instruction. Minor stylistic differences allowed as long as it preserves the intended meaning.
- Partially Followed and Fit: The draft mostly fits the email context but has a minor formality mismatch. The draft responds to incorrect name.
- Calibration note: Make sure the draft is evaluated against previous mail if there is any, and make sure there's no secondary element that gets omitted (Partially Grounded).

Pairwise Comparison

- The annotator's Pairwise Comparison aligned well with their own SBS result.
- Calibration note: Misgrading early dimensions creates an error effect of the final comparison.

EXAMPLES

da-dk	7
de-de	9
nb-no	11
tr-tr	13
en-gb	14
fr-fr	15

zh-tw	22

Locale	Input	Response	Comment
da-dk	Thomas Andersen Spørgsmål om nye opgaver i den kommende uge To: Hej Maria, Jeg skriver i forbindelse med planlægningen af den kommende uge. Jeg har god kapacitet og er interesseret i at påtage mig nye opgaver. Jeg vil derfor høre, om der er nye opgaver på vej, som jeg kan påtage mig? Tak Thomas Prompt: Expand this short reply into a complete email: Desværre ikke lige nu	Hej Thomas, Tak for din besked. Det er dejligt at høre, at du har god kapacitet i den kommende uge. Jeg har undersøgt det nærmere, men der er desværre ikke nogen nye opgaver lige nu. Vi har for øjeblikket godt styr på de nuværende projekter, så der er ikke behov for ekstra ressourcer i denne omgang. Jeg sætter stor pris på dit initiativ, og jeg skal nok huske dig, så snart der dukker noget op igen. Lad mig endelig vide, hvis du har spørgsmål i mellemtiden. Med venlig hilsen Maria Eriksen	Personalization: The response is personalized, following key points of the user's pattern and conversation context, yet it was rated as Contextually Adapted and Generic.
da-dk	Anna Nielsen Angående potentiel soloudstilling og dit nye arbejde To: Hej Daniel, Håber alt vel hos dig. Jeg har lige set nogle af dine seneste værker online, og jeg må sige, jeg er utrolig imponeret over den retning, du bevæger dig i. Det ser virkelig spændende ud! Jeg har tænkt lidt over det, og jeg kunne ikke lade være med at forestille mig, hvordan en soloudstilling med din nye serie ville se ud i galleriet. Den måde, du udforsker interaktionen mellem lys og skygge på, er virkelig fængslende, og jeg tror, det ville resonere stærkt med vores publikum. Hvis du har en ny serie værker på vej, som du overvejer at udstille, ville jeg meget gerne høre mere om det. Vi har nogle åbninger i vores udstillingskalender i slutningen af næste år, måske omkring oktober/november 2025, som kunne være interessante. Ville du være åben for at dele nogle materialer med mig – måske et par billeder af værkerne, en kort tekst om konceptet og en idé om, hvad en potentiel udstilling kunne indebære – når du er klar til det? Der er ingen hast, men jeg ville elske at se, hvad du arbejder på, og drøfte mulighederne nærmere. Jeg ser meget frem til at høre fra dig og potentielt udforske dette videre. De bedste hilsner, Anna Prompt: Expand this short reply into a complete email: Jeg vender tilbage snarest.	Hej Anna, Tak for din mail. Det er fantastisk at høre, at du er imponeret over mine seneste værker, og jeg er meget beæret over din interesse i en potentiel soloudstilling! Det lyder som en utrolig spændende mulighed, og jeg vil meget gerne drøfte det nærmere med dig. Jeg er i øjeblikket ved at færdiggøre den nye serie, som du nævner, og jeg vil meget gerne dele materialer med dig, så snart jeg er klar. Jeg forventer at have billeder og en konceptbeskrivelse klar inden for kort tid. Jeg vender tilbage snarest med materialet, så vi kan tage en dybere snak om mulighederne i oktober/november 2025. De bedste hilsner, Daniel	Groundedness: Annotators overlooked hallucinations and graded Response A as "Grounded" when it should have been "Partially Grounded". In this task, the draft adds unconfirmable information, such as stating the user is finishing a new series for a solo exhibition. Additionally, the draft claims they can continue with the talk in October or November 2025, which also cannot be confirmed anywhere in the task.

da-dk	Lykke Kristensen Opfølgning på samtale To: Kære Andreas, Jeg vil gerne takke dig for den gode samtale, vi havde den 25. oktober vedrørende stillingen som Senior Projektleder. Jeg fandt samtalen meget informativ og er fortsat meget interesseret i muligheden. Med venlig hilsen, Lykke Kristensen Prompt: Expand this short reply into a complete email: Tak for din besked.	Response A: Kære Lykke, Mange tak for din opfølgende mail. Jeg er glad for at høre, at du fandt samtalen informativ og fortsat er interesseret i stillingen som Senior Projektleder. Jeg vil gerne takke dig for din tid og det gode forløb indtil videre. Med venlig hilsen, Andreas Schmidt Response B: Kære Lykke, Mange tak for din mail og for din positive tilbagemelding efter vores samtale den 25. oktober. Det glæder mig at høre, at du fandt vores samtale informativ, og at du fortsat er motiveret for stillingen som Senior Projektleder. Vi var ligeledes meget begejstrede for vores snak, og vi værdsætter din åbne og konstruktive tilgang. Vi arbejder i øjeblikket på at samle op på vores samtaler, og jeg vender tilbage til dig så snart, der er nyt i processen. Du er selvfølgelig altid velkommen til at kontakte mig, såfremt du skulle have opklarende spørgsmål. Med venlig hilsen, Andreas Schmidt	Localization: Both responses include localization issues that were overlooked by the annotators. According to Danish formatting rules, a comma should not be inserted between the greeting and a name, nor should one be placed after the greeting or the closing. However, both responses incorrectly start with "Kære Lykke," and close with "Med venlig hilsen,".
--------------	--	--	--

de-de	Henriette Koch Catering-Anfrage für Mittagessen To: Hallo Kai, könnten Sie uns bitte mitteilen, ob Sie am 22. August 2024 für ein kleines Mittagessen Catering-Dienste anbieten können? Viele Grüße Henriette Prompt: Expand this short reply into a complete email: Ja, das ist möglich	Hallo Henriette, vielen Dank für Ihre Nachricht. Ja, das ist möglich. Ich freue mich, Ihnen mitteilen zu können, dass ich am 22. August 2024 für Ihr Mittagessen Catering-Dienste anbieten kann. Ich würde mich freuen, bald von Ihnen zu hören, um die Details zu besprechen. Viele Grüße Kai	Personalization: In this case, the user's profile Writing Style pattern specifies lacking_for matting; however, the response contains line breaks justified by the sender's relationship to the user. Although this deviates from the pattern specified in the user's profile, it represents a natural and contextually motivated adjustment that the user would reasonably make in this context. Therefore, it should be rated as Contextually Adapted rather than Personalized or Generic.
-------	--	--	---

de-de	Caterina Katz Agenda für das kommende Training & weitere Infos To: Hallo Andreas, ich hoffe, es geht dir gut. Bezüglich unseres anstehenden Trainings wollte ich dir den Entwurf der Agenda zukommen lassen, damit du einen ersten Überblick hast und wir die Details finalisieren können. Anbei findest du die vorläufige Agenda als „Agenda_Training_Entwurf_V1.pdf“. Bitte schau sie dir in Ruhe an und gib mir Bescheid, ob du Anmerkungen oder Änderungswünsche hast. Außerdem wäre es super, wenn du mir die voraussichtliche Teilnehmerzahl nennen könntest, damit wir die Raumgröße und das Material entsprechend planen können. Und falls es besondere Essenswünsche oder Allergien für das Catering gibt, bräuchte ich diese Informationen auch noch. Ich freue mich auf deine Rückmeldung und ein produktives Training! Viele Grüße Caterina Prompt: Expand this short reply into a complete email: Hier sind die gewünschten Informationen.	Hallo Caterina, vielen Dank für deine Nachricht und den Entwurf der Agenda. Ich hoffe, es geht dir gut! Hier sind die gewünschten Informationen für unsere weitere Planung: * **Teilnehmerzahl:** Wir werden voraussichtlich mit einer noch zu finalisierenden Anzahl an Personen teilnehmen. * **Catering:** Spezielle Essenswünsche oder Allergien liegen mir aktuell noch nicht vor, diese kläre ich aber gerne zeitnah ab. Die Agenda sieht für mich soweit hervorragend aus. Ich freue mich schon auf unser Training und die weitere Zusammenarbeit. Viele Grüße, Andreas	Groundedness: In this case: Response A contained additional information regarding the number of people and their dietary preferences, while Response B lacked this information. The annotators overlooked this difference, assuming the information was included in Response B as well, and therefore incorrectly downgraded it as “Not Grounded” despite it being “Grounded”.
-------	--	--	---

nb-no	Susanne Berg Måtte bare spørre deg om noe! 🙄 To: Hei Ingrid! Håper alt er strålende med deg! Jeg har tenkt så mye på deg i det siste, og hvor gøy det hadde vært å få catchet opp skikkelig. Jeg har en liten ide... Jeg lurer på om du har lyst og mulighet til å komme på besøk til meg her i Oslo den 15. august? Det er en lørdag, så da slipper vi stress med jobb og sånn. Vi kunne tatt en lang tur i marka, kanskje grillet litt hvis været er fint, og så bare slappet av og skravlet hele kvelden. Jeg kan lage favorittmaten din! Datoen er bare et forslag, altså! Hvis den ikke passer, så finner vi garantert en annen dag som funker bedre. Vil så gjerne se deg og høre alt som har skjedd! Gleder meg til å høre fra deg! Susanne Prompt: Expand this short reply into a complete email: Ja, det vil jeg gjerne!	Hei kjære Susanne! Så utrolig koselig å høre fra deg! Jeg ble så glad da jeg så e-posten din! Ja, det vil jeg gjerne! Jeg vil veldig gjerne komme på besøk til deg i Oslo den 15. august. Det høres helt perfekt ut med en tur i marka og grilling. Jeg gleder meg sånn til å se deg og høre alt som har skjedd! Stor klem, Ingrid	Personalization: Annotators graded this draft as "Generic" and "Mismatch" in personalization, despite it fully following the user's profile: 'lacks_formatting', 'segmented sentences', and uses the Mail Component Patterns.
nb-no	Kristin Jensen Varsel om fornyelse av serviceavtale To: Hei Andreas, Jeg vil informere om at deres årlige serviceavtale for "Premium-pakken" skal fornyes. Fornyelsesdato er 1. mars 2025. Vi kan fornye den automatisk med dagens vilkår. Alternativt kan vi diskutere eventuelle endringer før ny faktura sendes ut. Gi meg beskjed innen 15. februar 2025 om dere ønsker å fortsette som nå, eller om dere vil snakke om justeringer. Med vennlig hilsen, Kristin Prompt: Expand this short reply into a complete email: La oss diskutere justeringer.	Hei Kristin Takk for e-posten. Vi ønsker å fornye avtalen. La oss diskutere justeringer før vi fornyer. Når passer det for deg å ta en prat? Hilsen Andreas	Groundedness: In this task the reference email asks the user if they wish to renew or adjust their yearly service agreement. The response falsely assumes the user wants to renew, introducing unconfirmable information. This should be downgraded to "Partially Grounded".

nb-no	Thomas Johansen Spørsmål angående insentivutbetaling To: Hei Malin, Jeg har nå fullført den første fasen av studien og lurer på når jeg kan forvente utbetaling av insentivet. På forhånd takk. Med vennlig hilsen Thomas Johansen Prompt: Expand this short reply into a complete email: Utbetalingen er behandlet.	Hei Thomas, Tusen takk for at du har sagt deg villig til å delta i vår online forskningsstudie. Jeg vil gjerne informere deg om at utbetalingen av insentivet nå er behandlet. Skulle du ha noen spørsmål eller bekymringer i forbindelse med studien er det bare å ta kontakt. Med vennlig hilsen Malin Olsen	Localization: This response includes a localization issue that was overlooked by the annotators. According to Norwegian formatting rules, a comma should not be inserted after the greeting and name, but it is acceptable to insert a comma between the greeting and the name. For example, “Hei Thomas,” is incorrect, whereas “Hei, Thomas” is acceptable.
--------------	--	--	--

tr-tr	Tolga Yılmaz Önümüzdeki Hafta Görevlendirmeleri Hk. To: Meryem, Önümüzdeki hafta için yeni bir görevlendirme olup olmadığını öğrenmek istedim, programımı ona göre düzenleyebilirim. Bu konuda bir bilgi varsa benimle paylaşmanı rica ederim. Teşekkürler, Tolga Prompt: Expand this short reply into a complete email: Evet, yeni görevler var.	Merhaba Tolga, Öncelikle bilgilendirme ve programa uyum sağlama konusundaki hassasiyetin için teşekkür ederim. Evet, önümüzdeki hafta için netleşen yeni görevlendirmeler bulunuyor. Haftalık planlamayı yapabilmen adına detayları aşağıda seninle paylaşıyorum: * **Ankara Saha Ziyareti Koordinasyonu:** 6 Ocak 2026 Salı günü saat 10:00'da başlayacak olan saha ziyaretinin hazırlık ve koordinasyon süreçleri. * **Haftalık Operasyonel Verimlilik Raporu:** 8 Ocak 2026 Perşembe günü mesai bitimine kadar tamamlanması ve teslim edilmesi gereken raporlama çalışması. Görevlerle ilgili herhangi bir sorun olursa veya ek bir desteğe ihtiyaç duyarsan benimle iletişime geçebilirsin. İyi çalışmalar dilerim, Meryem Erik	Groundedness: Response B was graded as "Not Grounded" when it should have been marked as "Grounded". Annotators missed important details such as the additional Personal Info box, where all of this information is available, and therefore assumed the information was hallucinated. A more systematic review of the context, rather than a surface-level check, would have revealed the Personal Info box and prevented this false "Not Grounded" flag.
tr-tr	Mikail Can Günlük Rapor To: Caner, Günlük raporu tamamladım. Görüşürüz, Mikail Prompt: Expand this short reply into a complete email: Harika, hemen inceliyorum.	Selam William, Harika haber. Günlük raporu hemen inceliyorum. Görüşürüz, Caner Yılmaz	Instruction Adherence Contextual Fit: This response is addressed to a William, when the senders name of reference email is Mikail Can. Annotators overlooked this and graded the response as Followed and Fit when it should have been marked as Partially Followed & Fit.

en-gb

William Perry
Issue with New Gift Card - Invalid Card Error
To:

Dear William, I hope this email finds you well. I am writing to you again as you were so helpful with my previous gift card query, and I seem to be having another issue. I recently received a new gift card, and each time I attempt to use it online, I receive an 'invalid card' error message.

The gift card number is 6789 1234 5678 9012. I have tried several times over the past few days, and the error persists. Could you possibly look into this for me and advise on what might be causing the problem?

I would be very grateful for your assistance with this matter.

Kind regards,
Sarah Miller

Prompt: Expand this short reply into a complete email: Sorry for the trouble.

Dear William,

Thank you for your clear instructions previously. I am sorry for the trouble regarding this new gift card issue. I wanted to follow up and see if there were any updates on the invalid card error I reported. Your assistance has been most helpful, and I truly appreciate your time in looking into this matter for me.

Kind regards,
Sarah

Groundedness:
This response is not grounded. It introduces multiple elements unsupported by the instruction or the previous email. It fabricates a follow-up context "see if there were any updates..." that shifts the email's purpose to a status check and references non-existent prior details "Thank you for your clear instructions previously".

fr-fr	Thomas Dubois Suivi: paiement étude DIY auto To: Bonjour Barbara, Je me permets de faire un suivi concernant le paiement de l'étude sur la réparation auto DIY, à laquelle j'ai participé. Je n'ai pas encore reçu l'email de "Récompenses Faciles" avec les instructions. Pourriez-vous me donner une mise à jour sur l'état du traitement ? Merci, Thomas Prompt: Expand this short reply into a complete email: Je vérifie votre dossier.	Response A: Bonjour Thomas, Je vérifie votre dossier concernant le paiement de l'étude sur la réparation auto DIY. Je reviens vers vous dès que j'ai plus d'informations sur l'état du traitement. N'hésitez pas à me contacter si vous avez la moindre question. Cordialement, Barbara Response B: Bonjour William, J'espère que tout va bien pour vous. Merci pour votre message. Je suis actuellement en train de vérifier votre dossier concernant le paiement de l'étude sur la réparation auto DIY. Je comprends que vous n'avez pas encore reçu l'email de Récompenses Faciles, et je fais le nécessaire auprès de notre équipe pour m'assurer que tout soit régularisé rapidement. N'hésitez pas à me contacter si vous avez la moindre question. Cordialement, Barbara Barbier	Instruction Adherence & Contextual Fit: While Response B perfectly addresses the user's inquiry by stating it is looking into why the "Easy Rewards" email wasn't received, Response A completely overlooks this request. Therefore, Response A should be graded as "Partially Followed and Fit" and Response B as "Followed and Fit."
-------	--	--	--

fr-fr	Caroline Cohen On se refait un camping ? To: Salut Yann, Je repensais à notre dernier camping, c'était vraiment le top ! J'en garde un super souvenir, surtout la soirée guitare près du feu 🔥. Ça te dirait de se refaire ça le mois prochain ? J'ai vu quelques spots pas mal en Ardèche, ça pourrait être génial pour quelques jours d'évasion. Dis-moi si ça te tente et surtout si tu as des dispo, je suis super motivée ! On va bien s'amuser encore une fois, j'en suis sûre ! À très vite, Caroline Prompt: Expand this short reply into a complete email: Oui, quelle bonne idée!	Salut Caroline, Oui, quelle bonne idée ! Je suis super partant pour se refaire un camping. J'ai aussi adoré notre dernière sortie, surtout la soirée guitare, c'était mémorable ! L'Ardèche, c'est une excellente idée, il y a des coins magnifiques là-bas. Je suis très motivé pour quelques jours d'évasion. Dis-moi quand tu serais dispo, je vais regarder de mon côté pour poser quelques jours si besoin. On va encore bien s'amuser, c'est sûr ! À plus, Yann	Personalization: Response A is generic because it fails to adopt the user's sentence structure and closing formulas. Furthermore, it does not use any emojis, despite the conversational tone suggested in the conversation context.
-------	---	---	---

it-it	Melinda Ferrari Segnalazione articolo errato - Ordine #SR12345 To: Gentile Sig. Rossi, Le scrivo in riferimento all'ordine numero SR12345. Ho ricevuto un articolo errato. Avevo ordinato una Mappa Stellare personalizzata, ma ho ricevuto una Stampa delle Fasi Lunari. Allego un'immagine dell'articolo ricevuto per sua verifica (articolo_errato_SR12345.jpg). Potrebbe gentilmente fornirmi le istruzioni per la restituzione dell'articolo errato e per la spedizione dell'articolo corretto? La ringrazio per la sua collaborazione e assistenza nel risolvere questo disagio. Cordiali saluti, Melinda Ferrari Prompt: Expand this short reply into a complete email: Ecco le istruzioni di reso.	Gentile Melinda Ferrari, La ringraziamo per aver scelto Star Register per il suo ordine e ci scusiamo per il disagio riscontrato con la spedizione. Le confermo che abbiamo preso in carico la sua segnalazione relativa all'ordine SR12345. Di seguito le fornisco le istruzioni per procedere con il reso dell'articolo errato e ricevere la sua Mappa Stellare personalizzata. Può procedere rispedendo l'articolo tramite posta ordinaria all'indirizzo che le forniremo, e non appena riceveremo il pacco provvederemo a spedire immediatamente l'articolo corretto. La ringraziamo per la sua preziosa collaborazione e rimango a sua completa disposizione per qualsiasi ulteriore chiarimento. Cordiali saluti, Stefano Rossi	Groundedness: This response got graded as Partially Grounded and Not Grounded due to it being addressed to "Melinda Ferrari" when the Mail Component Patterns Address Forms: "Sheila". But as long as a name is found in the task (user prompt, previous email, additional info or profile), it would be marked as Grounded.
it-it	Ottavio Rossi Invito a colloquio - Posizione Analista di Marketing To: Gentile Signora Mariano, La ringraziamo per la sua candidatura alla posizione di Analista di Marketing presso la nostra azienda. Abbiamo esaminato con grande interesse il suo profilo e saremmo lieti di invitarla a un colloquio conoscitivo per discutere più approfonditamente la sua esperienza e le sue qualifiche. Per poter fissare la data e l'ora dell'incontro, la preghiamo di volerci indicare la sua disponibilità per una breve telefonata nei prossimi giorni, preferibilmente tra il 20 e il 24 maggio dalle ore 9:00 alle 17:00. In alternativa, può contattarci al numero 02 12345678. Restiamo in attesa di un suo cortese riscontro. Cordiali saluti, Ottavio Rossi Prompt: Expand this short reply into a complete email: Grazie, sono disponibile.	Ciao Drew, Grazie mille per la tua email e per l'opportunità di sostenere un colloquio per la posizione di Analista di Marketing. Sono molto entusiasta di questa possibilità e sarei lieta di discutere la mia esperienza con voi. Sono disponibile per la breve telefonata proposta nel periodo tra il 20 e il 24 maggio, dalle ore 9:00 alle 17:00. Non vedo l'ora della nostra conversazione. Saluti, Maria Giulia Mariano	Instruction Adherence & Contextual Fit: This response should be marked as "Followed and Fit" because it correctly confirms availability, maintains the professional interview context, and follows the prompt "Grazie, sono disponibile" without introducing irrelevant content. Furthermore, the response preserves the intended meaning and appropriate level of formality.

ja-jp	佐藤 太郎 本日午後のお電話について To: 健太さん 本日午後、少しお電話でお話できるお時間はございますでしょうか？ よろしくお願いいたします。 太郎 Prompt: Expand this short reply into a complete email: はい、大丈夫です	おはようございます。太郎さん ご連絡ありがとうございます。 本日午後のお電話、大丈夫です。 よろしくお願いいたします。 健太	Personalization: This response should be graded Contextual adapted, the draft uses a phrase that is slightly less formal and does not match with the speech level "大丈夫です".
ja-jp	山田 健太 来週のアサインメントについて To: 麻里子さん お世話になっております。来週のアサインメントについて、何か新しい案件はございますでしょうか？ 健太 Prompt: Expand this short reply into a complete email: はい、新案件があります	山田さん お世話になっております。ご連絡いただき、誠にありがとうございます。 お問い合わせいただきました来週のアサインメントについてですが、はい、お願いしたい新案件が1件ございます。詳細については現在最終調整を行っておりますので、まとり次第、改めてご連絡させていただきます。ご不明な点やご質問などがございましたら、いつでもお気軽にお知らせください。 お忙しいところ恐縮ですが、引き続きどうぞよろしくお願いいたします。 高橋 麻里子	Groundedness: This response should be Partially grounded because the part of the "新案件が1件ございます" is invented for the "1件" which is not mentioned in the prompt.

ko-kr	김지유 개인전 제안 드립니다! To: 준호님! 안녕하세요, 준호님! 지난번 전시회도 정말 잘 봤습니다. 다름이 아니라, 제가 최근에 새로운 연작 작업을 마무리하게 되어 준호님께 개인전 제안을 드리고자 메일 드렸습니다. 이번 작업은 '도시의 그림자'라는 주제로, 현대 도시인들이 느끼는 고독감과 그 속에서 피어나는 작은 희망을 표현했습니다. 주로 어두운 색감과 거친 질감을 사용하여 내면의 복잡한 감정을 시각화했어요. 대형 회화작품 10 점과 설치 작품 2 점으로 구성되어 있으며, 공간에 따라 유동적으로 구성할 수 있도록 준비했습니다. 내년 상반기나 하반기 중 편하신 시기에 전시를 진행할 수 있다면 좋겠습니다. 혹시 제안이 너무 갑작스러우셨을까요? 준호님께서 워낙 바쁘신 걸 알지만, 혹시 잠시라도 시간을 내주실 수 있다면 포트폴리오와 상세 기획안을 보내드리고 싶습니다. 저의 새로운 작업이 준호님의 갤러리 공간과 잘 어울릴지, 또 어떤 시너지를 낼 수 있을지 궁금합니다. 바쁘시겠지만 긍정적인 검토 부탁드립니다, 회신 기다리겠습니다. 감사합니다. 지유 Expand this short reply into a complete email: 죄송하지만, 어려울 것 같습니다.	Response A: 안녕하세요! 지유님! 답장 주셔서 정말 감사합니다! 보내주신 '도시의 그림자' 연작 작업에 대한 제안을 아주 흥미롭게 읽어보았습니다. 현대 도시인들의 고독과 희망을 표현하신 주제가 매우 인상적이었고, 지유님의 새로운작업이 저희 갤러리 공간과 잘 어울릴지 기대가 되었습니다. 하지만 안타깝게도 내년 상반기와 하반기 모두 이미 전시 일정이 확정되어 있어, 지유님의 개인전을 진행하기가 어려울 것 같습니다. 좋은 제안을 주셨는데 함께하지 못해 정말 아쉽습니다. 다시 한번 좋은 기회 주셔서 감사합니다! 감사합니다! 준호 Response B; 안녕하세요! 지유님! 보내주신 전시회 참여 제안 메일 정말 잘 받았습니다! 제 지난 전시를 좋게 봐주시고, 또 이렇게 소중하고 뜻깊은개인전 제안을 해주셔서 진심으로 감사드립니다. 지유님의 새로운 연작 '도시의 그림자'에 대한 설명을 들으니, 현대인의 감정을 깊이 있게 풀어낸 작업이 정말 인상적이고 매력적이라는 생각이 듭니다. 다만, 아쉽게도 이번에는 제안해주신 개인전 일정을 소화하기가 어려울 것 같습니다. 현재 제가 진행 중인 여러일정들과 내부적인 스케줄 조율 문제로 인하여, 내년 상반기와 하반기 모두 새로운 전시를 위한 시간을 내기가여의치 않은 상황입니다. 저 또한 지유님의 멋진 작품과 함께할 수 있는 기회가 된다면 정말 좋았겠지만, 현실적인 여건상 함께하지 못해 저역시도 많이 안타깝고 죄송스러운 마음입니다. 비록 이번에는 인연이 닿지 못해 아쉽지만, 보내주신 따뜻한 마음에 다시 한번 깊이 감사드립니다. 지유님께서준비하시는 이번 개인전이 꼭 성공적으로 개최되어 많은 관람객들에게 큰 울림을 줄 수 있기를 진심으로 응원하겠습니다. 다시 한번 좋은 기회 주셔서 감사합니다! 준호	Groundedness: Both responses A and B should be graded as Not grounded because it added an information that was not from the previous email or prompt; A: '전시 일정이 확정되어 있어', B: '진행 중인 여러 일정들과 내부적인 스케줄 조율 문제로 인하여'.

sv-se	Mikael Svensson Ny idé för marknadskampanj To: Hej Ines, Hoppas allt är bra med dig. Jag har suttit och funderat på en ny marknadskampanj som jag tror skulle kunna passa oss väldigt bra just nu. Det är en spännande idé som jag gärna skulle vilja bolla med dig. Skulle det passa att ta ett kort möte imorgon, kanske runt 10:00 eller 14:00? Låt mig veta vad som fungerar bäst för dig. Hörs snart, Mikael Prompt: Expand this short reply into a complete email: Ja, 10:00 passar utmärkt.	Hej Mikael, Ja, 10:00 passar utmärkt. Tack på förhand, Ines	Personalization: This task got graded as Generic when it should have been Personalized due to its user profile and formatting patterns combined with conversation context.
sv-se	Jonas Lindgren Intervjukooordinering - Framtidsteknikkonferensen & Tack! To: Hej Jan, Hoppas allt är bra med dig! Jag skriver angående Framtidsteknikkonferensen. Vi skulle gärna vilja koordinera intervjutider för kandidater som är intresserade av Tech Solutions AB under konferensen. Har du möjlighet att ange vilka tider som passar bäst för ert team? Förresten, tack så jättemycket för de där mattipsen du gav mig förra veckan. Bärpurén blev perfekt! Låt mig veta vilka tider som skulle fungera för dig/er för intervjuerna. Hälsningar, Jonas Prompt: Expand this short reply into a complete email: Jag återkommer med tider snart.	Response A: Hej Jonas, Tack för svaret. Jag återkommer med tider snart. Vi hörs, Jan Response B: Hej Jonas Tack för svaret. Jag återkommer med tider snart. Med vänliga hälsningar Jan Karlsson	Instruction Adherence & Contextual Fit: Both Responses A and B should have been graded as Partially Followed and Fit. Although they follow the main subject of the email and user prompt, they omit a secondary element from the reference email regarding a food tip that the sender expressed gratitude for.

vi-vn	Trần Ngọc Bích Mai Anh ơi, cuối tuần này mình gặp nhau nhaaa! To: Mai Anh ơi! Cậu khỏe không? Tự nhiên hôm nay tớ đi ngang qua quán kem mình hay ăn hồi xưa, lại nhớ đến cậu quá chừng! Lâu rồi mình chưa gặp nhau, tớ nhớ cậu lắm đó! Hay là cuối tuần này, thứ Bảy ngày 25/5, mình đi chơi đi? Tớ tính mình có thể đi ăn món Thái mà cậu thích, rồi đi dạo công viên hoặc ngồi cà phê tám chuyện cho đã nha. Nghe thôi là tớ thấy nôn nao rồi đó! Nếu ngày đó cậu bận thì mình đổi sang Chủ Nhật hoặc tuần sau cũng được, tớ rảnh cả mà. Cậu xem lịch rồi nhắn lại cho tớ sớm nha, tớ nôn nóng được gặp cậu lắm luôn á! Mong tin cậu! Bích Prompt: Expand this short reply into a complete email: Tuyệt vời, tớ tham gia!	Response A Re: Mai Anh ơi, cuối tuần này mình gặp nhau nhaaa! To: bích ơi! tớ cũng mừng lắm khi nhận được email của cậu! tuyệt vời, tớ tham gia! tớ cũng nhớ cậu lắm, nhớ cả quán kem ngày xưa nữa. cuối tuần này thứ bảy 25/5 mình đi ăn món thái rồi đi dạo công viên hay cà phê tám chuyện nhé. mình phải hẹn hò một bữa thật đã nha! mai anh	Groundedness: This response was rated Partially Grounded instead of Grounded. All information in the suggested draft is derived from the previous email.
zh-cn	刘洋 关于面试安排的回复 To: 亲爱的李明远, 您好！感谢您关于面试下一阶段的邮件。我已收到并确认，非常期待有机会进行进一步的交流。 请问您方便提供一些可选的面试日期和时间吗？我很乐意配合您的时间安排。 此致，敬礼 刘洋 Prompt: Expand this short reply into a complete email: 这是我的空档	亲爱的刘洋： 很高兴收到您的邮件。感谢您对我们职位的关注与热情，我非常期待与您进行进一步的交流。关于面试的时间安排，我目前在 2026 年 1 月 5 日（周一）下午 2:00 至 4:00，以及 2026 年 1 月 6 日（周二）上午 9:30 至 11:00 这两个时间段比较方便。请您看看哪个时间对您最为合适，并随时告知我，我们可以据此敲定最终的日程。期待与您进一步交流！ 李明远 Additional Personal info: User response to question “When am I available for an interview with Liu Yang?” is: 2026 年 1 月 5 日（周一）下午 2:00-4:00, 以及 2026 年 1 月 6 日（周二）上午 9:30-11:00。 User response to question “What is my schedule for the next few days?” is: 1 月 2 日（周五）：下午 3:00 招聘团队周会；1 月 5 日（周一）：下午 2:00-4:00 预留面试时间；1 月 6 日（周二）：上午 9:30-11:00 预留面试时间，下午 2:30 与技术总监讨论 HC。	Groundedness: This response got graded as Not Grounded because it added a date and time that were not specified in the prompt. But since this information was available in the Additional Personal info box, it should have been rated as Grounded.

zh-hk	林嘉欣 關於域名續期及潛在合作機會 To: 宇瀚，希望你呢個星期一切順利！ 想提一提你，我哋系統顯示你哋幾個主要域名，例如 yourcompany.com.hk 同埋 yourcompany-asia.com，都將會喺未來幾個月內到期續約，例如 yourcompany.com.hk 大約三個月後到期，yourcompany-asia.com 就大約六個月後。建議你可以提早規劃一下續期事宜。 另外，最近我哋同一間新嘅軟件夥伴「智聯科技」有過交流，佢哋專門提供人工智能客戶服務方案，覺得佢哋嘅方案好有潛力，可以大大提升客戶服務效率。唔知你哋會唔會有興趣了解多啲，或者我幫你哋介紹智聯科技嘅負責人俾你哋認識？ 此致， 嘉欣 Prompt: Expand this short reply into a complete email: 暫時沒有興趣	Response A: 你好嘉欣, 多謝你嘅電郵同埋更新。關於你提到嘅域名續期，我會盡快安排處理。至於你介紹嘅「智聯科技」合作機會，我哋暫時未有興趣進一步了解，不過都多謝你嘅推薦。祝好, 宇瀚 Response B: 你好嘉欣, 多謝你嘅電郵同埋更新。關於域名續期嘅事宜，我哋會喺內部檢視並適時處理。至於你提到智聯科技嘅人工智能客戶服務方案，感謝你嘅推薦，不過我哋現階段暫時沒有興趣。 祝好 宇瀚	Instruction Adherence & Contextual Fit: Both Responses A and B: Followed and Fit. The language is professional, but the email formatting is weak (e.g., no spacing after the greeting or lack of structure into formal paragraphs). This is generally treated as a minor stylistic issue rather than a major failure, so it should still pass.
zh-tw	王奕安 嗨！最近好嗎？ To: 志明， 嗨！最近過得怎麼樣啊？傳訊息來跟你問聲好，希望你一切都很好喔！ 保重！ 奕安 Prompt: Expand this short reply into a complete email: 謝謝你的關心	Response A Re: 嗨！最近好嗎？ To: 奕安啊：看到你的信我也很開心啦，謝謝你的關心喔！我最近都還不錯，一切都好。你也要好好照顧自己喔！ 志明 Response B Re: 嗨！最近好嗎？ To: 奕安啊： 看到你的信我也很開心啦！謝謝你的關心，我最近一切都很好喔，請不用擔心。 你最近過得怎麼樣啊？希望你一切也都順利！ 你也要好好照顧自己喔，等你有空的時候再跟我聯絡啦。 志明	Localization: Response A contains wrong punctuation format for zh-TW but didn't get penalized for it. Response B is fully appropriate and doesn't contain any localization issues.
